

Senior Leader | Training & Development Offering – Onsite Only

Effective Financial Management (1 Day)

Cooperative leaders need to understand how their decisions impact the overall success of an organization. Sometimes financial information seems like something you use to measure your success rather than looking to it as a tool for making better management decisions. This class will help leaders make better management decisions.

INTENDED AUDIENCE

Mid-and senior-level managers who are looking for ways to use financial information effectively as they build plans for the future.

DURATION

1 day

WHAT PARTICIPANTS WILL LEARN

Effective Financial Management is a highly practical approach designed to take real cooperative data, delve into the implications and impact of alternative decisions and build an understanding of smart business choices.

As a result of this session, participants will be able to:

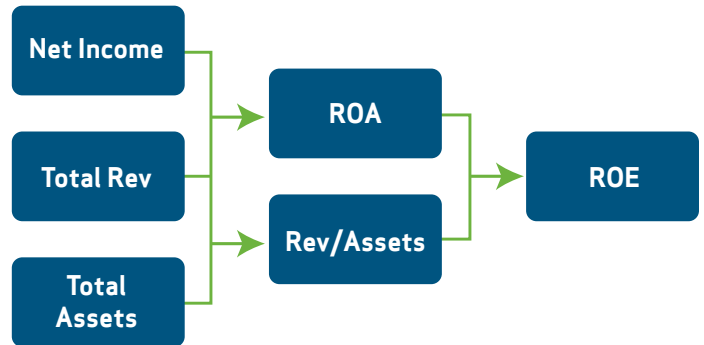

- Better use financial information to manage their business
- Identify and have an impact on the strategic drivers of business goals
- Look for and analyze assumptions needed to do financial analysis of major capital decisions

TO REGISTER

Please contact BDTraining@landolakes.com if you are interested in scheduling a hosted session for your cooperative.
